Watson - "Comment fabriquer son papier"	\$25.00

Studio Rentals

Our studio is available for use by papermakers. The cost is \$10.00 per hour per person for non-exclusive work time (you and up to 3 other papermakers work around each other; although you can book individual equipment ahead of time), or \$45.00 per hour for exclusive use (you have priority for all equipment, and can bring as many people as you wish). This rental fee includes water and power, advice on product usage, but you must bring or purchase all your own materials. Please contact us for detailed information and an equipment list.

Beaten Fibres and Pulp

We now have the facilities to supply you with beaten pulp. The following rates apply, depending on exactly what you want done:

Cutting raw fibres, per kg	\$22.00
Soaking, cooking in Soda Ash, and rinsing of raw fibres	
Basic charge per batch (up to 1kg raw fibre)	\$10.00
Cooking per batch per hour	\$15.00
Bleaching per batch	\$10.00
Beating in Hollander beater	
Basic charge, includes final draining and cleaning of beater	\$10.00
Batch charge (up to 650g/1½lbs per batch)	\$10.00
Beating charge per batch per hour (first 3 hours)	\$10.00
Beating charge per batch per hour (beyond 3 rd hour)	\$7.00
Extra draining (to reduce shipping costs)	\$5.00
Deposit on pails (refundable on return of pails)	\$10.00

Each pail holds one beater load if undrained, or 3 to 4 beater loads if drained.

Beaten pulp is mostly water, and water is heavy, so shipping costs can add substantially to small orders; outside of Southern Ontario, the shipping may cost more than the beating charges.
